DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 19, 2008 has been entered.

Response to Amendment

Applicant's amendments and response received May 19, 2008 have been entered. Claims 1-24 are currently pending in this application. Amendments and response are addressed hereinbelow.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Steve Jinks (Reg. 62760) of Oliff & Berridge, PLC on July 29, 2008.

3. The application has been amended as follows:

In claim 21:

On line 11, change "...selecting a black data generating table dependently on color of the extracted minimum value..." to ---selecting only one black data generating table dependently on color of the extracted minimum value irrespective of whether the three color values in the received set of color data are different from one another---.

In claim 23:

On line 11 change "...a table selecting portion selecting a black data generating table dependently on color of the extracted minimum value..." to --- a table selecting portion selecting only one black data generating table dependently on color of the extracted minimum value irrespective of whether the three color values in the received set of color data are different from one another---.

Specification

The abstract has been amended to obviate the objection previously made by examiner. In light of the amendment, Examiner withdraws objection.

Allowable Subject Matter

3. Claims 1-24 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any subsequent prior art which teaches a method of generating color data for image formation comprising preparing a plurality of black data generating tables which have different black data conversion characteristics from one another, selecting only one black data generating table dependently on color of the extracted minimum value irrespective of whether the three color values in the received set of color data are different from one another, and generating a value for black using the selected black data generating table and based on the extracted minimum value.

The closest prior art of record (John Charles Dalrymple et al US 20030072016 A1) teaches a method of color conversion comprising selecting black data generation tables dependently on the extracted minimum color value and interpolating between the black data generation tables to receive an output for black data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JAMARES WASHINGTON whose telephone number is (571)270-1585. The examiner can normally be reached on Monday thru Friday: 7:30am-5:00pm.
